Throughout ProQuest's evolution we've established our position as the leading provider of microform and electronic information to school, academic, public, and government libraries around the world. Since 1938, we've worked closely with the worldwide publishing community to preserve and provide access to information. Our many long-term, trusted partnerships with publishers have made ProQuest the information company of choice for over 9,000 publishers.

ProQuest aggregates source material from third-party publishers and creates associated abstracts and indexes for such material to make up our databases. The databases are derivative works as defined under the Copyright Act of 1976, Title 17 U.S.C. and are therefore subject to copyright protection. ProQuest is the sole holder of the copyright in the ProQuest-created abstracts and in the databases as a whole.

With respect to third-party databases, ProQuest distributes and hosts certain third-party databases and in some cases provides the associated full-text articles, transcripts and other value added elements to compliment the offering through ProQuest's own proprietary online search engines. Additionally, ProQuest is the proprietary owner of the on-line platforms that form a substantial part of the **ProQuest®**, **Alexander Street™**, **RefWorks®**, and its other on-line information and research services.
